## GENDER DISTRIBUTION

| | |
|---|---|
| Male | 998 (74%) |
| Female | 351 (26%) |

Note: Gender inclusion target of 35% female set for next cohort

## PILOT SCOPE

**Government Schools Only — By Design**

This cohort exclusively targets public sector teachers, aligned with STEDA's provincial mandate to strengthen government school outcomes across Sindh.

**Private Schools: Not in Scope (Phase 1)**

Private school inclusion is under consideration for Phase 2 (Q3 2026), subject to regulatory approval.

**SA** **Safia Abbasi**
PST · Hyderabad
*"Rumi app has made lesson planning effortless. I created a complete weekly plan in minutes instead of hours."*

**MK** **Muhammad Khalid**
SST · Karachi
*"The AI coaching gives personalised feedback. Teachers in our school are genuinely excited about this platform."*

**RA** **Rukhsana Arif**
ECT · Larkana
*"JazakAllah to the STEDA team — this is exactly what teachers needed. Registration was simple and fast."*

**AH** **Abdul Hamid**
HST · Dadu
*"The reading assessment tool helped me identify which students need extra support. Very practical for classroom use."*

**NB** **Nadia Baloch**
JEST · Khairpur Mirs
*"I appreciate that the app supports Urdu. Teachers with limited English can still benefit fully — great initiative."*

# Findings & Recommendations

## 1 Strong Activation Rate

67.8% of enrolled teachers (915 of 1,349) activated their accounts within the first 9 days — well above the 50% benchmark for digital onboarding programmes.

✓ TARGET: REACH 80% BY APRIL 15

## 2 Lesson Plan Feature Traction

395 teachers generated 975 lesson plans with a 98.2% completion rate. Average of 2.47 plans per user signals genuine recurring engagement, not one-time exploration.

→ PROMOTE TO REMAINING 520 ACTIVATED TEACHERS

## 3 434 Teachers Unreached

32.2% of the enrolled cohort has not yet activated. District-level follow-up via school coordinators is recommended — particularly for districts with below-average rates.

! TARGETED OUTREACH CAMPAIGNS NEEDED

## 4 Active Community Engagement

551 members joined the WhatsApp community with 54 self-confirming registration in chat. Positive sentiment from ~20 teachers confirms grassroots satisfaction and peer advocacy potential.

→ ACTIVATE PEER CHAMPION PROGRAMME

## 5 Gender Gap to Address

Female teachers represent only 26% of the enrolled cohort. Inclusive recruitment strategies and female-focused onboarding sessions should be prioritised for the next cohort intake.

→ TARGET 35% FEMALE IN NEXT INTAKE

## 6 Feature Expansion Opportunity

Coaching and other features show minimal usage compared to Lesson Plans. A structured feature introduction programme — including short tutorial videos — could unlock broader platform adoption.

→ LAUNCH FEATURE TUTORIAL SERIES IN APRIL

### Overall Assessment

The STEDA onboarding phase has been a measurable success. With nearly 68% activation in under two weeks, strong lesson plan adoption, and genuine community enthusiasm, the programme is well-positioned to achieve full cohort engagement by end of April 2026.
